

Press Alert

CiDRA to present at NJWEA John J. Lagrosa 102nd Annual Conference to be held in Atlantic City, New Jersey at the Bally's Atlantic City 1900 Pacific Avenue

Joe Poplawski, CiDRA's sales manager for North America, will be sharing a presentation titled, *Innovative Flow Technology for the Wastewater Industry*

Details for this presentation:

Date: Tuesday, May 9th

Time: 9:00 a.m.

Joe's presentation will describe the innovative technology now tested and approved by one of the largest DEP agencies in the U.S. CiDRA's sonar-based flowmeter was installed on a 10-inch de-gritted sludge line and was compared with an electromagnetic meter installed on the same line. Results of that comparison and the approval will be reviewed as part of presentation.

CiDRA will also be exhibiting at the event, joining their representative, PCS Pump & Process, Inc. so please join them at the conference and discuss the advantages and benefits this solution will bring to your process.

The NJWEA Conference and Exposition is the largest water environment exposition in the Northeast. The event draws participants from throughout the country for four days of training education and offers the opportunity to meet with manufactures and their representatives in a relaxed, informal setting to learn about their latest products.
